

Our Contract with You

Britain Needs Reform and Reform UK Needs You

Britain has so much potential.

Our country is full of talent and energy. Brexit is the opportunity of a lifetime.

The challenges we face are vast. Both Labour and Tory governments have broken promise after promise. They have destroyed trust in our democracy and betrayed the British people.

Our country is worse off, both financially and culturally. The economy is being wrecked by record high taxes, record high national debt, wasteful government spending and nanny state regulations.

Record mass immigration has damaged our country. The small boats crisis threatens our security.

Multiculturalism has imported separate communities that reject our way of life. Divisive, 'woke' ideology has captured our public institutions. Transgender indoctrination is causing irreversible harm to children.

The unprecedented population explosion has pushed Britain to breaking point. There's a housing crisis. A benefits crisis. Record crime. Record NHS waiting lists. Wages are stagnating. Net Zero has sent energy costs soaring. It is making us poorer and colder, damaging British industry and forcing drivers off the road.

The Tories have broken Britain. Labour will bankrupt Britain. A vote for either is a vote for more

Reform UK: Our Contract with You

incompetence, dishonesty and defeat. The two-party system has failed. We are ruled by an out-of-touch political class who have turned their backs on our country.

But there is an alternative. The British people now have a common sense choice in Reform UK.

Our Contract with You is a serious plan to reshape the way our country is run. The government must work for the British people. Not against them.

Only Reform UK will stand up for British culture, identity and values. We will freeze immigration and stop the boats. Restore law and order. Repair our broken public services. Cut taxes to make work pay. End government waste and deliver our fully funded plan for zero NHS waiting lists. We will unlock Britain's vast energy treasure of oil and gas to slash energy bills, beat the cost-of-living crisis and unleash real economic growth.

Once and for all, we will take back control over our borders, our money and our laws.

Only Reform UK will secure Britain's future as a free, proud and independent sovereign nation.

Nigel Farage

Leader, Reform UK

Our Contract with You is not just another party manifesto. It sets out the reforms that Britain needs in the first

We are impatient for change. We are doers and achievers. Our Contract with You will be delivered by people with a real track record of success.

OUR CORE PLEDGES TO YOU

Fourteen years of Tory failure are coming to an end. A Labour government would ramp up mass immigration, crime, and taxes even further. Labour and the Tories are two sides of the same coin.

Only Reform UK is ready to stand up for common sense politics. We set out our plan in this document, **Our Contract with You**. Wherever you look, Britain needs Reform.

Our Contract with You covers the most important areas of policy for you and your family, but we have summarised these into five core pledges:

1. Imagine Smart Immigration, Not Mass Immigration

All non-essential immigration frozen to boost wages, protect public services, end the housing crisis and cut crime.

2. Imagine No More Small Boats in the Channel

Illegal migrants who come to the UK will be detained and deported. And if needed, migrants in small boats will be picked up and taken back to France.

3. Imagine No NHS Waiting Lists

Still free at the point of delivery, healthcare needs reform to improve outcomes and enjoy zero NHS waiting lists. Cut back office waste to spend more money on the frontline. Tax breaks for doctors and nurses to tackle the staffing crisis.

4. Imagine Good Wages for a Hard Day's Work

Lift the income tax starting threshold to £20k to save the lowest paid £1,500 per year. This takes 7 million of the least well-off out of Income Tax to make work pay and get people off benefits.

5. Imagine Affordable, Stable Energy Bills

Scrap energy levies and Net Zero to slash energy bills and save each household £500 per year. Unlock Britain's vast oil and gas reserves to beat the cost of living crisis and unleash real economic growth.

This is what
Reform UK MPs will fight hard
for if elected.
So if you want change, vote
for it on July 4th.
Vote Reform UK to get
reform.

IMMIGRATION

“Securing
our borders to boost your wages

Uncontrolled Immigration and protect public has Pushed Britain to British culture services and Breaking Point

**Reform UK will secure Britain’s borders
to protect wages, our public services,
and British culture and values.**

and values.”

Withdraw citizenship from immigrants who commit crime with the exception of some misdemeanour offences.

Bar Student Dependents

Introduce new visa rules for international students that bar dependents. Only international students with essential skills can remain in the UK. Close down fake courses and immigration schemes that abuse the rules.

Stop Health Tourism and Immediate Access to Benefits

We will impose a requirement of 5 years residency and employment to claim any benefits in the UK.

Employer Immigration Tax

The National Insurance rate will be raised to 20% for foreign workers. This would incentivise businesses to employ British citizens whose National Insurance rate would stay at 13.8%. Essential foreign health and care workers would be exempt from the tax, as would businesses who employ 5 staff members and under. This would boost wages and could raise more than £20 billion over five years to pay for apprenticeships and training for young Brits.

CRITICAL REFORMS NEEDED IN THE FIRST 100 DAYS:

Freeze Non-Essential Immigration

Strict limits on immigration are the only way to relieve the pressure on our housing, public services, increase wages and protect our culture, identity and values. Essential skills, mainly around healthcare, must be the only exception.

Stop the Boats with our 4 Point Plan Leave the European Convention on Human Rights. Zero illegal immigrants to be resettled in the UK. New Department of Immigration. Pick up illegal migrants out of boats and take them back to France.

Secure Detention for all Illegal Migrants All asylum seekers that arrive illegally from safe countries will be processed rapidly, offshore if necessary. Those entering from a safe country will also be barred from claiming asylum or citizenship. No legal aid for non-citizens. Those rejected will be returned.

Immediate Deportation for Foreign Criminals Deport

IMMIGRATION PLEDGES SAVINGS

= £5-10 BILLION PA

EMPLOYER IMMIGRATION TAX

= £4BN PA

foreign nationals immediately after their prison sentence ends.

SLASH

GOVERNMENT

WASTE

Government

Spending Needs

Major Reform

Reform UK will slash wasteful spending to increase funding for frontline public services and reduce taxes for working people.

Cut Foreign Aid by 50%

Save £6 billion from the £12.8 billion budget. A major review is needed into the effectiveness of overseas aid. That includes global quangos to which we pay over £7 billion every year.

CRITICAL REFORMS NEEDED IN THE FIRST 100 DAYS:

Bank of England Must Stop Paying Interest to

Commercial Banks on QE Reserves

This approach would save around £35 billion per year and has been endorsed by senior figures at the Financial Times, New Economics Foundation, and IFS, as well as two former Deputy Governors of the Bank of England.

Save £5 in every £100

Every department must slash wasteful spending, cut bureaucracy, improve efficiency and negotiate better value procurement without touching frontline services. This will save £50 billion per year, ensure tax cuts and boost our economy.

Brexit Bonus. Cut Unnecessary Regulations Britain still retains over 6,700 EU laws. Government red tape and nanny state regulations are estimated to have cost the UK economy £143 billion since 2015. That means £ billions lost in growth and taxes.

Collect £ Billions in Unpaid Tax

HM Revenue and Customs failed to collect tens of billions in taxes last year due to understaffing and bad management. Improved HMRC competence would deliver lower taxes to British workers.

**“Reform UK
will make sure
taxpayers’
money is never
wasted.”**

**SLASH GOVERNMENT WASTE:
POTENTIAL SAVINGS = £91 BILLION PA**

ECONOMY - PERSONAL **Our Economy Needs Reform**

Reform UK will make work pay and help the unemployed to escape the benefits trap.

CRITICAL REFORMS NEEDED IN THE FIRST 100 DAYS:

Make Work Pay. Lift the Income Tax Start Point to £20,000 Per Year

This frees up to 7 million people from paying Income Tax and saves every worker almost £1,500 per year. Basic Tax rate stays at 20%. The higher rate should begin at £70,000.

Cut Energy Taxes, Beat the Cost-of-Living Crisis

duty by 20p per litre for both residential and

Abolish the VAT Tourist Tax The government has cost our

**“Reform UK
will take 7 million
people out of
Income Tax.”**

REFORM UK 2024

5

Save households over £500 per year. Lower fuel

Cut Residential Stamp Duty

Substantially boost economic activity and housebuilding by cutting Stamp Duty to 0% below £750k. Cut it to 2% from £750k - £1.5m and cut it to 4% over £1.5m.

economy over £10 billion when they stopped the VAT refund scheme for tourist shopping. This also deterred up to 2 million tourists.

Abolish Inheritance Tax (IHT) for all Estates Under £2m

That means some 98% of all estates. The rate above £2m will be 20% tax, with the option to donate to charity instead.

business users. Scrap VAT on energy bills. Scrap environmental levies.

ECONOMY - BUSINESS Our Economy Needs Reform

Reform UK will back risk takers and wealth creators and make sure that Britain is open for business.

CRITICAL REFORMS NEEDED IN THE FIRST 100 DAYS:

Free Over 1.2 Million Small and Medium Sized Businesses from Corporation Tax

Lift the minimum profit threshold to £100k. Reduce the main Corporation Tax Rate from 25% to 20%, then to 15% from Year 3.

Abolish IR35 Rules to Support Sole Traders

enterprises to create a fairer playing field for high streets. Cut entrepreneurs' tax to 5%.

Reform the Planning System

Fast-track new housing on brownfield sites and infrastructure projects to boost businesses, especially in coastal regeneration areas, Wales, the North, and the Midlands.

Slash Red Tape to Boost Industry and Exports Scrap thousands of laws that hold back British business and damage productivity, including employment laws. We must make it easier to hire and fire so that businesses can grow.

NHS **The NHS Needs Urgent Reform**

Britain's self-employed often work longer hours and take more risks. Many have no pension and receive no sick pay.

Lift the VAT Threshold to £150,000

Free up small entrepreneurs from red tape.

Thereafter:

Support Small and Medium Sized Enterprises (SMEs)

Abolish Business Rates for high street based SMEs. Offset this with Online Delivery Tax at 4% for large, multinational

Reform the Tax System

Major simplification is needed. At over 21,000 pages, the UK's tax code is a burden. Hong Kong's tax code

Despite record extra funding in recent years, NHS healthcare outcomes have declined. While still free at the point of delivery, our healthcare needs major

is under 500 pages.

"Reform UK will back risk takers and wealth creators."

**ECONOMY - BUSINESS PLEDGES
COSTS = £18 BILLION PA**

reforms to improve results and enjoy zero waiting lists.

CRITICAL REFORMS NEEDED IN THE FIRST 100 DAYS:

End Doctor and Nurse Shortages

All frontline NHS and social care staff to pay zero basic rate tax for 3 years. This will help retain existing staff and attract many who have left to return. End training caps for all UK medical students. Write off student fees pro rata per year over 10 years of NHS service for all doctors, nurses and medical staff.

Use Independent Healthcare Capacity

We will harness independent and not-for-profit health provision in the UK and overseas.

Tax Relief of 20% on all Private Healthcare and Insurance

This will improve care for all by relieving pressure on the NHS. Those who rely on the NHS will enjoy faster, better care. Independent healthcare capacity will grow rapidly, providing competition and reducing costs.

Thereafter:

Put Patients in Charge With a New NHS Voucher Scheme

NHS Patients will receive a voucher for private treatment if they can't see a GP within 3 days. For a consultant it would be 3 weeks. For an operation, 9 weeks. Services will always be free at the point of use.

Improve Efficiency. Cut Waste and Unnecessary Managers

Operating theatres must be open on weekends. Rotas must be planned further in advance. Nail down better prices using economies of scale. Review all NHS Private Finance Contracts for significant savings potential. Charge those who fail to attend medical appointments without notice. Abolish the NHS Race and Health Observatory.

Save A&E

Cut waiting times with a campaign of 'Pharmacy First, GP Second, A&E Last'. We will offer tax incentives for new pharmacies and those who employ more staff to assist in relieving pressure on A&E.

Excess Deaths and Vaccine Harms Public Inquiry

Excess deaths are nearly as high as they were during the Covid pandemic. Young people are over-represented.

**"Patients first.
Rapid care.
Cutting waste -
an NHS to be
proud of
again."**

**NHS PLEDGES COSTS
= £17 BILLION PA**

NET ZERO

Net Zero is Crippling our Economy

Net Zero is pushing up bills, damaging British industries like steel, and making us less secure. We can protect our environment with more tree planting, more recycling and less single use plastics. New technology will help, but we must not impoverish ourselves in pursuit of unaffordable, unachievable global CO2 targets.

CRITICAL REFORMS NEEDED IN THE FIRST 100 DAYS:

Scrap Net Zero and Related Subsidies

Ditching Net Zero could save the public sector over £30 billion per year for the next 25 years.

Scrap Annual £10 Billion of Renewable Energy Subsidies

Achieve this through equivalent taxes on them. Renewables are not cheaper. Our bills have increased dramatically in line

with the huge increase in renewables capacity over the last 15 years.

Cheap, Secure Energy for Britain

Start fast-track licences of North Sea gas and oil. Grant shale gas licences on test sites for 2 years. Enable major production when safety is proven, with local compensation schemes.

Thereafter:

Cleaner Energy from New Technology

Fast-track clean nuclear energy with new Small Modular Reactors, built in Britain. Increase and incentivise ethical UK lithium mining for electric batteries, combined cycle gas turbines, clean synthetic fuel, tidal power and explore clean coal mining.

“Reform UK will scrap Net Zero to cut bills and restore growth.”

**NET ZERO PLEDGES
SAVINGS = £30 BILLION PA**

POLICING

Reform UK will restore Law and Order on Britain's streets and make sure that criminals face justice.

CRITICAL REFORMS NEEDED IN THE FIRST 100 DAYS:

Commence Increase in Police Numbers

Recruitment to increase UK per capita police numbers to 300 per 100k population. That is 40,000 new front-line officers, over a 5-year parliament.

Commence Zero Tolerance Policing

Clampdown on all crime and antisocial behaviour. Increase Stop and Search substantially.

Prison for violent crimes and possessing a knife. Drug dealing and trafficking will get mandatory life imprisonment. A new offence of Substantial Possession of Drugs will meet heavy fines.

Urgently Needs Reform

New Police Leadership and Recruitment Regime

Strong preference for ex-military officers and presentation for front line officers. Sack Chief Constables that allow two-tier policing.

More Bobbies on the Beat

Ensure that police return to the beat and use better technology and stop wasting time on paperwork. Allow PCSOs to become police officers before the role is phased out.

Common Sense Policing not 'Woke' Policing

Scrap all Diversity, Equality and Inclusion (DE&I) roles and regulations to stop two-tier policing. Overhaul the Independent Office of Police Conduct (IOPC) so that the police complaints system becomes more accountable and works for the lawabiding public.

Thereafter:

De-Politicise the College of Policing

Prioritise crime prevention, discipline, public service and high standards of strength and fitness among trainees. Replace

personnel. High standards of fitness and

**"Zero tolerance
policing. More
police, higher
standards"**

**POLICING PLEDGES COSTS
= £3 BILLION PA**

degree-standard entry with an entrance exam. Require officers to complete a 2-year probationary period. Stricter entry requirements.

JUSTICE

Reform UK will build a common sense justice system that punishes criminals and keeps the public safe.

Justice Needs Reform

CRITICAL REFORMS NEEDED IN THE FIRST 100 DAYS:

Urgent Sentencing Review with Automatic Life Imprisonment for Violent Repeat Offenders

Those committing second violent or serious offences will receive mandatory life sentences.

Increase the Criminal Justice Budget

The budget is almost the same as it was 10 years ago. Increase it from £10 billion to £12 billion to ensure more high calibre staff to cut delays. Reopen local magistrates' courts to clear the case backlog.

Reform UK: **Our Contract with You**

Change the Definition of Hate Crime

The CPS and police definition of a hate crime has led to
must not be investigated because 'any' person

**"Reform UK
will make sure
that criminals
face justice."**

**JUSTICE PLEDGES COSTS
= £2 BILLION PA**

systemic bias. Members of the British public

Start Building of 10,000 New Detention Places

Start expansion in capacity of state built and managed prisons so that life means life for those who endanger the public. Commission disused military bases if needed.

Thereafter:

Reform the Child Maintenance Service

We will launch a special division of the Family Court for maintenance and defaults. Share parental care 50/50 where appropriate. Rights of access for grandparents.

'perceives' that a hate crime has been committed.

EDUCATION

Too Many Children and Young People are Being Badly Let Down

Reform UK wants an education system that ensures young people are proud of Britain and learn the skills, character and values to succeed in life.

Stop Child Grooming Gangs

Deport offenders holding dual citizenship. Make child grooming an aggravating offence. Improve safeguarding of victims and vulnerable. No bail for grooming gang offenders.

Tackle Youth Crime

Reopen High Intensity Training Camps for young offenders to teach basic education, teamwork and values.

CRITICAL REFORMS NEEDED IN THE FIRST 100 DAYS:

A Patriotic Curriculum in Primary and Secondary Schools

Any teaching about a period or example of British or European imperialism or slavery must be paired with the

teaching of a non-European occurrence of the same to ensure balance. History and social science curriculum to be reviewed and audited regularly to ensure balance. Our children must be taught about their heritage. **Ban Transgender Ideology in Primary and Secondary Schools**

No gender questioning, social transitioning or pronoun swapping. Inform parents of under 16s about their children's life decisions. Schools must have single sex facilities.

Tax relief of 20% on all Independent Education

No VAT on Fees. If parents can afford to pay a bit more,

We will double the number of Pupil Referral Units (PRUs) so schools can function safely. We will also ensure that best practice is spread across PRUs.

Universities Must Provide 2-Year Undergraduate Courses

The option of 2-year courses would reduce student debt and allow earlier entry into employment to help pay it off.

we should incentivise them to choose independent schools. This will significantly ease pressure on state schools and improve education for all.

Scrap Interest on Student Loans

Extend loan capital repayment periods to 45 years. Restrict undergraduate numbers well below current levels, too many courses are not good enough and students are being ripped off. Enforce minimum entry standards.

Thereafter:

Cut Funding to Universities that Undermine Free Speech

The government's Free Speech Act is toothless. Allowing political bias or cancel culture must face heavy financial penalties. **Permanent Exclusions for Violent and Disruptive Students**

BENEFITS The Benefits System is Broken

Reform UK will ensure those who can work do work.

CRITICAL REFORMS NEEDED IN THE FIRST 100 DAYS:

Make Work Pay

Lifting the Income Tax start point to £20,000 per year means an extra £1,500 per year. This would be a key incentive for those on benefits to find work. **Motivate up to 2 million People**

Back to Work

Reforms to benefit support and training will help people back into work. Particular focus on 16-34 year olds. Employment is critical to improving mental health. Tax relief for businesses that

Enforce a 2-Strike Rule for Job Offers

All job seekers and those fit to work must find employment within 4 months or accept a job after 2 offers. Otherwise, benefits are withdrawn.

Face to Face, Not Remote Assessments for Benefits

Personal Independence Payment and Work Capability Assessment should be face to face. We will require independent medical assessments to prove eligibility for payments. Those registered with severe disabilities or serious long-term illnesses would be exempt from regular checks.

undertake apprenticeships.

**“In Britain,
if you can
work, you must
work.”**

**BENEFITS PLEDGES
SAVINGS = £15 BILLION PA**

BREXIT

Get Back Control of our Borders, Money and Laws

Reform UK will do what the Tories have failed to - grasp the huge opportunities of Brexit

CRITICAL REFORMS NEEDED IN THE FIRST 100 DAYS:

Legislate to Scrap EU Regulations with Immediate Effect

Britain still has over 6,700 retained EU laws, which we will rescind. British laws on State Aid, Competition, Employment, Net Zero and the Environment are still based on EU regulations.

Abandon the Windsor Framework

This is worse than the original Northern Ireland Protocol. The UK has been partitioned down the Irish Sea. Northern Ireland is still in the EU's single market for goods. It is unacceptable that British citizens in Northern Ireland are being ruled by EU laws.

Thereafter:

Independence for Britain's Armed Forces

The government has signed up to the EU Horizon programme. That means we send money to the European Defence Fund and part of the EU's military mobility project. Our Armed Forces are at risk of being sucked into an EU Command and Control Force.

"Reform UK will unlock the major opportunities of Brexit."

Prepare for Renegotiations on the EU Trade and Cooperation Agreement

A so-called EU 'level playing field' is holding us back.

DEFENCE

Reform UK will ensure our servicemen and women have the resources they need to defend our nation and that they are respected and supported after they leave the services.

CRITICAL REFORMS NEEDED IN THE FIRST 100 DAYS:

Increase Defence Spending to 2.5% of National GDP by year 3, then 3% within 6 years

This will increase the size and capacity of our armed forces and ensure our lead role in NATO. It will also

Be the Best and in the World

improve equipment, quality of life for services personnel and boost morale in military communities.

Introduce Urgent Pay Review

Increase basic pay across our armed forces to boost recruitment and retention. It is unacceptable that a private soldier is paid less than an Amazon worker.

Introduce new Armed Forces Justice Bill

Protect our servicemen and women on active duty inside and outside the UK from civil law and human rights lawyers. The bill will also create an armed forces watchdog to fast-track complaints and appeals in housing and welfare.

“Reform UK will strengthen our armed forces and empower our veterans.”

**DEFENCE PLEDGES
COSTS = £14 BILLION PA**

New, Dedicated Ministerial Department for Veterans

A properly funded and resourced whole department is essential to guarantee no veteran goes without and that our former servicemen and women play a leading role in our society and economy. **Thereafter:**

Recruit 30,000 for the army

Military national service for 30,000 young people for one year is not the answer. We need to recruit 30,000 to join the army full time

Regenerate Britain's Defence Manufacturing and Technology

Introduce incentives and tax breaks to boost the UK defence industry. Improve equipment selfsufficiency and manufacture world class products for export.

Reform Defence Procurement

Launch a Joint Acquisition Corp to ensure world class procurement. The Ministry of Defence must listen to soldiers on the front line and ensure they get the equipment they need.

Education for Military Personnel

Free education both during and after service is vital to ensure a successful return to civilian life.

HOUSING

Britain has a Housing Crisis

Reform UK will ensure that people can own their own home by unleashing housebuilding across the country and cutting

immigration.

CRITICAL REFORMS NEEDED IN THE FIRST 100 DAYS:

Review the Planning System

Fast-track planning and tax incentives for development of brownfield sites. 'Loose fit planning' policy for large residential developments with preapproved guidelines and developer requirements. **Reform Social Housing Law**

Prioritise local people and those who have paid into the system. Foreign nationals must go to the back of the queue. Not the front.

Scrap section 24 for Landlords

The tax system should encourage smaller landlords into the rental markets. Not penalise them. We will restore landlords'

rights to deduct finance costs and mortgage interest from tax on rental income.

Abolish the Renters' (Reform) Bill

Existing legislation was inadequate to address bad practices. Instead, we will boost the monitoring, appeals and enforcement process for renters with grievances.

Thereafter:

Protection for Leaseholders

All potential charges for leasehold or freehold residents must be clearly stated and consented to. Enforce Section 106 agreements. Ensure it is cheaper and easier to extend leases to 990 years and buy freeholds.

Incentivise Use of New Construction Technology

We will incentivise innovation to speed up building: modular construction, digital technology and building sites that improve efficiency and cut waste.

"Affordable homes for hard-working British people."

**HOUSING PLEDGES
COSTS = £ NEUTRAL**

Reform UK believes that strong

CHILDREN AND FAMILIES families first.

Britain's future depends on

Mandate Single Sex Spaces

"Putting Britain has one of the

our young
people."

Highest Family Breakdown Rates in the Western World

families are the bedrock of a thriving society – we will support family formation and give parents back control.

CRITICAL REFORMS NEEDED IN THE FIRST 100 DAYS:

Support Marriage Through the Tax System As soon as finances allow, introduce a UK 25% transferable marriage tax allowance. This would mean no tax on the first £25,000 of income for either spouse. This will help make work pay and incentivise people trapped on benefits back into the workplace.

Choice for Stay-at-Home Mums or Dads

The majority of mothers would choose to stay at home more if they could. Front-loading the Child Benefit system for children aged 1-4 would give parents the choice to spend more time with their children.

Public toilets and changing areas must provide single sex facilities.

Promote Child Friendly App Restricted Smartphones

Social media is associated with eating disorders, anxiety, depression, suicide and the child mental health crisis. Launch an inquiry into social media harms.

Thereafter:

Review the Online Safety Bill

Social media giants that push baseless transgender ideology and divisive Critical Race theory should have no role in regulating free speech.

**CHILDREN & FAMILIES PLEDGES
COSTS = £8 BILLION PA**

Reform UK will take a pragmatic

TRANSPORT & UTILITIES INFRASTRUCTURE

Accelerate Transport Infrastructure

Reckless Gambling on Transport & Utilities Infrastructure Must End

approach to getting Britain's infrastructure back on its feet and keeping it secure from foreign threats.

CRITICAL REFORMS NEEDED IN THE FIRST 100 DAYS:

Scrap HS2

Save £25 billion by scrapping the rest of this bloated vanity project.

Stop the War on Drivers

Legislate to ban ULEZ Clean Air Zones and Low Traffic Neighbourhoods. Scrapping Net Zero means no more bans on petrol and diesel cars and no legal requirements for manufacturers to sell electric cars. We will keep the speed limit low where safety is critical. Otherwise, 20 MPH zones will be scrapped.

Focus on our coastal regions, Wales, the North, and the Midlands. Improve existing rail and road links. Integrated services are critical.

Thereafter:

Tighter Regulation and New Ownership Model for Critical National Infrastructure

The British taxpayer needs to be in control of Britain's utilities. Launch a new model that brings 50% of each utility into public ownership. The other 50% would be owned by UK pension funds, benefiting from new expertise and better management. We will ensure standing charges are capped to help low users and pensioners.

A Single Government Infrastructure Funding Stream

Overhaul and merge the National Infrastructure Commission and the Infrastructure Bank. Scrap Net Zero objectives. Simplify the funding process to save time, cut waste, boost funding and accountability.

"Reform UK has the vision to transform Britain's broken infrastructure."

**TRANSPORT AND UTILITIES
INFRASTRUCTURE PLEDGES
SAVINGS = £25 BILLION ONE-OFF
£5 BILLION PER YEAR
OVER FIRST 5 YEARS**

Reform UK will revitalise Britain's AGRICULTURE

Thereafter:

Reform to Take Advantage of Brexit

**agriculture to give a muchneeded boost
to our farmers and guarantee the
country's food security.**

CRITICAL REFORMS NEEDED IN THE FIRST 100 DAYS:

Increase the Farming Budget to £3 Billion

Focus on smaller farms. Keep farmland in use. Bring young people into farming. Boost rural economy and culture. Increase innovation and diversification. Help farmers to farm, not pay them to leave or retire.

Scrap Climate-Related Farming Subsidies

Productive land must be farmed, not be used for solar farms or rewilding. Replace current subsidies with direct payments. Stop Natural England from taking action that damages farmers.

Protect Country Sports

These increase investment and help conservation of our environment. They boost rural jobs, communities and local economies.

Stop Supermarket Price Fixing

Grant powers to the Competitions and Markets Authority to ensure fair pricing. Help farmers sell their produce directly to the public. Change planning laws to support farm shops with zero business rates.

Buy British. Buy Quality

Target 70% to ensure food security. Taxpayer funded organisations should source 75% of their food from the UK. Clear labelling for consumer choice. Boost smaller food processors and abattoirs through tax breaks and other incentives.

Farming not Form Filling

Many farmers spend over 15 hours a week on paperwork. Cut red tape from HMRC and the British Cattle Movement Service.

**“Reform UK
will put British
agriculture back
on its feet.”**

**AGRICULTURE PLEDGES
COSTS = £2 BILLION PA**

Reform UK will seize the huge FISHING & COASTAL COMMUNITIES

Ban Foreign Supertrawlers from UK Waters

Betrayed Britain's Fishing Industry

opportunity to renew our fishing industry and revive our coastal communities.

CRITICAL REFORMS NEEDED IN THE FIRST 100 DAYS:

Stop EU Fishers Taking UK Quotas

End automatic access to UK waters. Every foreign fishing vessel must pay for a licence to gain access to the UK's 200 nautical mile Exclusive Economic Zone (EEZ), as designated under the United Nations Convention on the Law of the Sea (UNCLOS). Stop

Foreign Owners using British flags of convenience. Quota reforms needed to help small scale fishing.

Expand the Royal Navy Overseas Patrol Squadron

Police Britain's 200 nautical mile EEZ properly. Assess the possibility of creating a dedicated coast guard or fisheries protection agency.

Extend the ban on pair trawling for bass beyond the South East and 12-mile territorial waters. Ban Dutch vessels from electric pulse fishing in Britain's 200 mile EEZ. **Thereafter:**

Rebuild UK Fish Processing

Tax and other incentives to ensure that all fish caught in British waters are landed and processed in the UK. Fish caught by foreign vessels in UK waters should also be landed and processed here when capacity allows.

Revitalise the UK's Fishing Fleet

Tax incentives and vocational training to increase UK fishing fleets. Include fishing communities in policy making.

Guarantee Sustainable Stocks

Implement a 'dynamic management system'. Work with national and regional partners such as the North East Atlantic Fisheries Commission.

**“Reviving
our coastal
communities.
Revitalising
our fishing
industry.”**

**FISHING AND COASTAL COMMUNITIES
PLEDGES COSTS = £2 BILLION PA**

PENSIONS AND SOCIAL CARE

Our Elderly Deserve to be Treated with Dignity and Respect

Reform UK will ensure that our elderly people can live with dignity through long-term reforms funded by a growing economy.

CRITICAL REFORMS NEEDED IN THE FIRST 100 DAYS:

Reform UK: **Our Contract with You**

Commence Royal Commission of Inquiry into Social Care System

Reform UK: **Our Contract with You**

A national plan is critical for a sustainable social

to the Mineworkers.

**“Reform UK
will treat our
elderly with the
respect they
deserve.”**

Reform UK: **Our Contract with You**
care system. The sector needs flexibility, tax

We accept the Business, Energy and Industrial Strategy

**“Reform UK
will make Britain**

**a fully sovereign, democratic
nation.”**

CONSTITUTIONAL REFORM

Britain’s Constitutional Arrangements Need Reform

incentives, VAT breaks and less waste. Simplify social care through a single funding stream, instead of the split between NHS and Local Authorities. More funding will be needed when a national plan is agreed.

Stop the Offshore Taxpayer Rip Off

Some larger care home providers are avoiding tax on hundreds of millions of profits through complex offshore property company structures and high interest shareholder loans. This has to end.

Thereafter:

Review Pension Provision

The current pension system is riddled with complexity, huge cost and poor returns leading to less uptake. Countries like Australia do savings and pensions much better and cheaper than we do and from a much younger age. **End the Mineworkers Pension Scandal**

Committee 2021 recommendations in full to amend the Mineworkers Pension Scheme arrangements so that all the scheme surpluses accrue

We will end the corruption of our government and politics by an out-of-touch, Londoncentric elite to make Britain a more democratic, accountable, and therefore more prosperous nation.

CRITICAL REFORMS NEEDED IN THE FIRST 100 DAYS:

Leave the European Convention on Human Rights

Commence reform of the Human Rights Act so that it puts the rights of law-abiding people first.

Reform UK: **Our Contract with You**

Commence Reform of the House of Lords &

RECLAIMING BRITAIN

Reform is Needed to Defend and Promote British Culture, Identity

Civil Service

Replace the crony-filled House of Lords with a much smaller, more democratic second chamber. Structure to be debated. Immediate end of political appointees. Replace Civil Service leaders with successful professionals from the private sector, who are political appointees, who come and go with the government.

Commence Reform of the Postal Voting System

Postal voting has allowed electoral fraud. We will stop postal voting except for the elderly, disabled or those who can't leave their homes.

Thereafter:

Proportional Representation Voting for the House of Commons

Large numbers of voters have no representation in parliament and new parties are shut out of the political

system. Voter turnout could be some 10% higher with PR.

A referendum is needed.

A British Bill of Rights

Our freedoms must be codified and guaranteed. Never again can our entire country be locked down on shoddy evidence and lies. Our data and privacy must be protected. Surveillance of the public must be limited and those monitoring us held to account.

and Values

Reform UK will uphold British values and legislate against extremist forces that seek to undermine our way of life.

CRITICAL REFORMS NEEDED IN THE FIRST 100 DAYS:

Reaffirm British Sovereignty

Reject the influence of the World Economic Forum. Reject the World Health Organisation (WHO) Pandemic Treaty and

Let's Save Britain

**CONSTITUTIONAL REFORM
PLEDGES = £ NEUTRAL**

Reform UK: **Our Contract with You**

cancel our membership of the WHO unless there is fundamental reform to its structure and funding.

Reform UK also opposes the Creation of a Central Bank Digital Currency (CBDC). We oppose a cashless society.

Replace the 2010 Equalities Act

The Equalities Act requires discrimination in the name of 'positive action'. We will scrap Diversity, Equality and Inclusion (DE&I) rules that have lowered standards and reduced economic productivity.

**"Upholding
British culture,
identity, and
values."**

Propose a Comprehensive Free Speech Bill

Legislate to stop left-wing bias and politically correct ideology that threatens personal freedom and democracy. No more de-banking, cancel culture, left wing hate mobs or political bias in public institutions. Stop Sharia law being used in the UK.

Commence Reform of the BBC

The out-of-touch wasteful BBC is institutionally biased. The TV licence is taxation without representation. We will scrap it. In a world of on-demand TV People should be free to choose.

Make St George's and St David's Day a Public Holiday

English national identity should be officially promoted and celebrated, not ignored or banned.

Launch an Anti-Corruption Unit for Westminster

We will ensure that public officials face sanctions if they break the rules, including prison. Our new Anti-Corruption Unit will have legal powers to investigate past and future scandals.

FUNDING OF REFORM UK

PLANS

SAVINGS PLEDGES

Policy Area	Annualised Savings Over 5 Year Electoral Term Amount in £ billions
